

OUR WAY

WITHOUT DEVIATION OUR METHOD OF SELLING GOODS IS

ONE PRICE-SPOT CASH

Notwithstanding we have repeatedly made this known both orally and in the public print, frequently we are asked for credit. It is true, on request, we let out goods on approval, but if the goods are unpaid for or returned in two or three days our cashier has instructions to present the bill. And so long as this privilege isn't abused it will be a pleasure to continue this system.

Our prices are based on a cash system only. And while we believe customers with whom we are PERSONALLY acquainted are good for their contracts, with merchants of mature judgment and ripe experience it is an established fact that the credit merchant must add additional profits to offset losses and the necessary additional expense of doing a credit business. So that on our present margin of profit it would ruin us financially to do a credit business.

a savings account of his own, then teach him how to build a "BANK CREDIT" for future use.

The amount of the account at the start is of minor importance. Placing him in the way of learning practical business methods, the value of thrift, economy and the accumulation of small sums, is what counts.

A growing bank account is recognized by business men as a recommendation—they realize the fact that it makes for sobriety, conservatism and a better, broader citizenship.

Start your boy right—come in NOW and open an account for him, give him the bank book as a New Year's present. See our 4 per cent saving ad in this paper, in which we give away \$250.00.

Yesterday a negro named Enby Vasher tried to sell some old brass to parties on the east side of the square. The brass consisted of a lot of nozzles that had been broken into pieces. The man to whom Vasher tried to sell them phoned Chief of Police Norman, when the negro ran off leaving the brass.

Marshal Norman took the bag of brass to the fire station and on inquiry found they had been stolen from the compress platform and soon afterwards he and Policeman Shipp arrested Vasher and have him in the calaboose awaiting trial. It was a quick piece of detective work and arrest.

"A Happy New Year Be Thine, and in Thy Household May Peace and Contentment Reign Supreme."

On this, the beginning of a new year, we desire to express our appreciation for the confidence reposed in us during the year just ended, and to assure you that throughout the year, on the threshold of which we now stand, our every effort will be to merit the favor of your esteemed patronage.

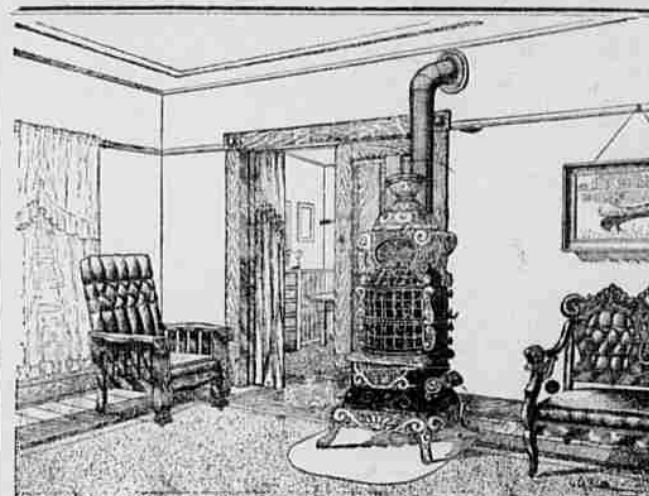

The fundamental idea of our merchandizing methods, is, and will be, that no transaction is complete until it carries perfect satisfaction to the purchaser.

Our close relations with manufacturers assure our customers not only the finest choice from the most worthy goods, and a certain degree of exclusiveness, but also the most favorable prices. No trash, no impractical things, none of those cheapish goods—that careful people wouldn't have at any price—but worthy, desirable, high grade merchandise.

The keynote of the store business will be quality, service and real satisfaction to our customers.

WARMTH

COZINESS AND COMFORT so desirable at this time of the year may be accomplished only by means of adequate heating facilities. If you use Stoves you must get a good one to secure comfort and still maintain cleanliness besides; the poor Stove may be a little cheaper, but you have to pay for it many times over in the additional fuel that it consumes without giving back heat in exchange. Before we buy Stoves we first must be satisfied as to their low fuel consumption, so you are sure on this point as well, when you buy a Stove from us for our guarantee of satisfaction outlasts every stove we sell.
